

TRAINING ON LONGITUDINAL DATA ANALYSIS

Hanoi Medical University, 1st – 3rd October 2013

The project “Research to Policy - Building a Sustainable Network in the Field of Health in Vietnam” (VNNH) is going to organize a training course on longitudinal data analysis for Vietnamese researchers.

General information:

- Time: 1st – 3rd October 2013 from 09:00 to 16:30
- Venue: Room 412, A1 Building, Hanoi Medical University
- Lecturer: **Prof. Max Petzold**
Gothenburg University
Gothenburg, Sweden

Tentative program

Date	Time	Content
Tuesday, 1 st Oct	08h30 – 09h00	Welcome to the course
	09h00 – 12h00	Introduction to longitudinal modeling
	13h00 – 16h30	Stata exercise on extracting information from longitudinal data
Wednesday, 2 nd Oct	09h00 – 12h00	Longitudinal modeling – model choice and model evaluation
	13h00 – 16h30	Stata exercise on statistical modeling
Thursday, 3 rd Oct	09h00 – 12h00	Statistical coaching
	13h00 – 16h30	Statistical coaching

To register for this course, please send an email to ntmthoa@gmail.com before 28th September 2013 with following information:

- Full name:
- Education Level:
- Place of work/study:
- Email address:

Important note:

- The course will be fully in English (no translation) and full-time attendance is requirement.
- Participants should bring their own laptop installed Stata software
